Whirlpool® Duet Sport™ HT and Duet Sport™ Washer and Dryer Pairs

Whirlpool® Duet Sport™ HT and Duet Sport™ Washer and Dryer Pairs deliver exceptional performance and easy operation while conserving resources. These contemporary front-loaders deep clean large loads using half the water (saves up to 22 gallons per load) and energy required by traditional top-load washers. With accelerated dry times that are faster than wash cycle times, there is no lag between cycles. The

Innovative Suspension System allows the washer to spin up to 1,100 RPM without “walking” or moving. Each pair’s compact design is flexible enough to install just about anywhere – whether stacked, undercounter or on optional 10" or 15.5" pedestals. The dryer’s large, reversible door and four-way venting provide additional installation flexibility. Duet Sport™ HT and Duet Sport™ pairs are ENERGY STAR® qualified for 2007.
