## Whirlpool Gold® Fast Fill Dispensing System

Whirlpool Gold® Fast Fill Dispensing System, now available in side-by-side refrigerators, redefines how an exterior water dispenser performs. With a 50 percent larger dispenser area, extendable tray and rotating faucet, homeowners can quickly fill even large pots. Almost any size container can be filled twice as fast as a traditional water dispenser. Select a wide or slow stream for no splash filling. The measured fill feature is 95 percent more accurate than traditional water dispensers, allowing homeowners to easily select ounces, cups, liters, or a preset amount.
