## Whirlpool® Laundry 123™ Solutions

Whirlpool® Laundry 123™ Solutions help utilize space and transform the laundry room into a functional, efficient and organized area. This suite of custom laundry options gives homeowners an instant solution for organizing, sorting, treating and folding within the laundry space. The line includes vertical laundry towers to hold and hide all laundry supplies within easy reach, horizontal pedestals to provide extra space beneath front-loaders and lift them to a more comfortable

height, a laundry worksurface to convert the tops of front-loaders into a convenient surface to sort, treat and fold, and a slide-out worksurface for stacked front-loaders that gives additional space for sorting, treating, hanging, and folding clothes. Products are available in colors and styles that match existing Whirlpool® laundry products, including the Duet®, Duet Sport™, Cabrio™ and the “Classic” series, which complements numerous washers and dryers.
